# TRANSFER OPPORTUNITIES

An element of the Finger Lakes Community College mission is to prepare students for transfer to four-year colleges and universities to continue their studies toward a baccalaureate degree. Finger Lakes has established agreements with public and private four-year institutions to facilitate transfer of students once the associate degree is obtained. It is important to note that Finger Lakes graduates transfer to many colleges and universities in addition to those noted below. Students who are transferring to four-year institutions should follow the general education course requirements for transfer to SUNY and non-SUNY schools as explained on pages 84-89.

Two types of transfer agreements currently exist at Finger Lakes:

■ **Joint Admissions Agreements** (listed below) and □ **Transfer Articulation Agreements** (see page 78)

■ **Joint Admissions Agreements** enable entering, first-time freshmen to earn admission to Finger Lakes Community College and certain four-year colleges and universities at the same time. Students completing an Associate in Arts (A.A.) or Associate in Science (A.S.) degree program are generally eligible to participate in a joint admissions agreement. Students participating in a joint admissions program will transfer with full junior status, will not have to submit a transfer application, and may receive early registration privileges at that four-year college. Students should indicate their interest in joint admissions when applying to FLCC. Certain restrictions may apply to the joint admissions programs. Consult with a transfer professional in The Center for Advisement and Personal Development.

Finger Lakes Community College has Joint Admissions Agreements with the following colleges and universities:

**Genesee Community College**

- A.A.S. Respiratory Care

Through a regional articulation agreement with Genesee Community College, Finger Lakes Community College offers access to a two-year Associate in Applied Science degree program in Respiratory Care. This agreement allows students to apply for admission to the program and complete their first-year course requirements at Finger Lakes Community College's Canandaigua campus. In the second year, they attend classes at Genesee Community College and complete clinical internships at health care facilities in their home area. Upon completion of all curriculum requirements, students apply for graduation through Genesee Community College and, if all requirements are met, the A.A.S. degree in Respiratory Care is awarded by GCC. For more information, contact the FLCC Office of Admissions at (585) 394-3500, ext. 7278.
