Environmental, Health and Safety (EHS) Technician Assistant Federal Work Study

Brief Description of the Position:

Utilize computer and interpersonal skills to work with environmental, health and safety professionals in satisfying EHS regulatory requirements for the College.

Primary Duties:

- Assisting with the application of environmental, safety and occupational health laws, regulations, principles, theories, practices, and procedures to advise on or resolve technical matters dealing with environmental, occupational safety and health requirements.
- Working with environmental, safety or occupational health program elements.
- Assisting with the development and recommendation of environmental, safety and occupational health policy.
- Assisting with the development of environmental, safety and occupational health practices, and procedures to eliminate or control potential hazards.
- Assisting with the development and implementation of programs to reduce the frequency, severity, and cost of accidents and occupational illnesses.
- Analyzing or evaluating new and existing jobs, processes, products, or other systems to assist with determining the existence, severity, probability, and outcome of hazards.
- Assisting with the design or modification of workplaces, processes, products, or other systems to control or eliminate hazards.
- Inspecting or surveying workplaces, processes, products, or other systems for compliance with established environmental, safety and occupational health policies or standards and to identify potential new hazards.
- Assisting with analyzing or evaluating environmental health hazards utilizing survey techniques, and/or control and eradication methods.

Special Requirements:

MS Office familiarity and demonstrated interpersonal skills.
