Other Contact Hours
90 (90 hours over 3 weeks)

Catalog Description
This course provides an opportunity for the nursing student in the last semester of the nursing program to closely study the role and responsibilities of the nurse in an assigned agency/unit and, under the guidance of the clinical preceptor, prepare to gradually assume the responsibilities of a RN on that unit/agency. This course is graded S (Satisfactory) or U ( Unsatisfactory)

Prerequisites
NUR 202 with a grade of "C" or better.

Co-requisites
None

Grading Scheme
Pass/Fail

Course Learning Outcomes

1. Students will provide and advocate for safe patient centered care with emphasis on increasingly complex health problems building upon learning in previous nursing courses, within an applied intensive setting.

2. Students will practice within a professional, legal, and ethical scope within an applied intensive setting.

3. Students will function as a member of the inter-professional team through effective communication and mutual respect to achieve quality patient outcomes, within an applied intensive setting.

4. Students will use evidence-based practice standards, a spirit of inquiry, technological and informational literacy to promote safe practice within changing and uncertain environments with emphasis on increasingly complex health problems within an applied intensive setting.

Program Affiliation

This course is not required as a core course in a program

Outline of Topics Covered

Because this is a practice course, there are no defined topics other than those presented related to patients for whom students have cared. However, examples of topics could include: how to prioritize among a group of 5 patients, determination of new orders and how to implement them correctly, safety measures used to diminish central line blood borne infections, and working with families to help them deal with the anticipated loss of a family member.
